INSTRUCTIONS TO THE UNDER GARDENER

Load up the car, get ready for the trip,
These lovesome gardens keep you on the go,
It's time to take the rubbish to the tip.

Knock back your tippie, don't sit there and sip,
There's far too much to do, as well you know.
Load up the car, get ready for the trip.

Tomorrow you will have to get a grip
On all those thistles standing in a row.
It's time to take the rubbish to the tip.

There's twenty bags at least of stuff to ship.
And when you're back, there's still the grass to mow.
Load up the car, get ready for the trip.

Water the pots. The deadheads need a snip,
And weedlings to be ravaged with the hoe.
It's time to take the rubbish to the tip.

No matter if you're longing for a kip,
No use to shake your head and say "Oh no!"
Load up the car, get ready for the trip,
It's time to take the rubbish to the tip.
